

# SkyDrive Aerial

## Volunteer Dog Search & Rescue Drone Support

SkyDrive Aerial provides voluntary drone support to assist dog search and rescue operations. This service is offered entirely free of charge, driven by the belief that a lost pet is not just an animal, but a valued member of the family.

## What We Provide

- Calm aerial overwatch to support ground search teams
- Terrain and access awareness to aid search planning
- Situational visibility in open or hard to reach areas
- Clear communication with the designated search coordinator

## How We Operate

All support is provided in coordination with the lead search coordinator and subject to landowner permission. Operations are conducted safely, deliberately, and with respect for people, property, and animals.

## Cost & Privacy

- No fees are charged under any circumstances
- No footage from active searches is shared publicly
- Privacy and discretion are fundamental to our approach

## Availability & Contact

Volunteer support is subject to availability, weather conditions, and legal operating constraints.
